Store in original container locked in a cool dry well-ventilated place. Do not store with food products or in areas accessible by children.

APPLICABLE ON: WALLS, ROOFS, PATHS, COMMERCIAL & DOMESTIC BUILDINGS

ALWAYS WEAR THE APPROPRIATE PPE: SAFETY GLASSES, GLOVES, GUMBOOTS, OVERALLS

REORDER

ALGAE, MOSS MOLD & LICHEN SURFACE TREATMENT

TC is a highly effective surface treatment formulated to kill and control unsightly biological contamination on interior and exterior surfaces. Utilizing the power of Type 5 quaternary ammonium compounds **TC** has less than 10% actives offering greater performance than similar products.

TC is non-caustic and may be used around plants when diluted and applied as per directions.

DILUTION RATIOS

- General purpose treatment: 1 litre with 10-12 litres water
- Heavy duty treatment: 1 litre with 6-8 litre water
- Applying around plants: 0.5 litres with 20 litres water

APPLICATION

Ensure surfaces are dry before applying. Saturate the surface by spraying.

Heavy infestations may require a 2nd treatment. Roofs and exterior surfaces may be left to weather away over 2-3 months. Alternatively, removal may be hastened by rinsing off after a minimum of 8 hours drying.

It is recommended to disconnect downpipes if using on roofs connected to water tanks.

APPROVALS

MPI Approved C22 (all animal product except dairy).
