BIODEGRADABLE ALCOHOL BASED HAND SANITISER

ELITE INSTANT HAND SANITISER is easy to apply and fast drying. It kills pathogens on contact with the skin and is effective against a wide range of bacteria, viruses, and other micro-organisms that cause disease. The alcohol content allows quick sanitising and fast drying which results in a non-sticky and natural feel in the hands.

It is a clear gel liquid of neutral pH, and contains no perfume, making it suitable for food handling applications. It is free rinsing, leaving no residue.

DIRECTIONS

- Dispense metered amount 0.5 mL onto palm by using atomising / foaming dispenser. Rub into hands until completely dry (30 seconds). Pay attention to underside of fingernails and cuticles.
- Wash hands thoroughly with potable water after using this product.

APPROVALS

MPI Approved C51 (all animal product except dairy).
