Powerful Multi-Purpose Spray-and-Wipe

Organically certified, this powerful surface spray-and-wipe cleaner has been formulated for use in commercial kitchens and food processing plants. Designed to be used in conjunction with ANK Neutral Anolyte offering a total organic cleaning solution.

APPLICATION

Use in a Foam Spray Bottle for general purpose surface cleaning or Foaming Unit for larger areas. Effective cleaner on glass, plastic, ceramics and stainless steel. For use in toilets and showers for cleaning and sanitising.

DIRECTIONS

Light Duty: 30mls per Litre – 3%

Med Duty: 50mls per Litre – 5%

Heavy Duty: 100mls per Litre – 10%

Ensure all edible food and food packaging including poultry and eggs is removed from the room. Apply liberally. It is an effective pathogen control if allowed to dwell on surface for 10 minutes. On completion, all food contact surfaces must be rinsed with potable water.

SAFE PRACTICE

When using Sustain in food processing areas, all food contact surfaces must be rinsed with potable water before production starts.
